Our elegant and practical Ziptex roller blind has a hidden zip at the fabric edge. The zip is concealed in aluminium side channels and stops light entering at the sides of the window

## Advantages of Ziptex

- Ideal for rooms requiring :
  - blackout such as for audio visual exhibitions, bedrooms, cinema
  - up to 10 times improved temperature insulation by prevention of air transmission
  - noise insulation (similar to double-glazing)
  - room dividers
  - insect-repelling function
  - blinds with high wind resistance
- Can be installed inside or outside the building
- Elegant appearance
- High wind resistance up to 120kph (Wind resistance class 6 according to DIN 13659)
- 5 year warranty and extremely robust
- Cassette and guide channels available in all RAL colours
- Any fabric can be used such as metallic screen, Satine 5500, Twilight Pearl 297 and 283, Soltis® 86,92 and B92, Dickson Orchestra

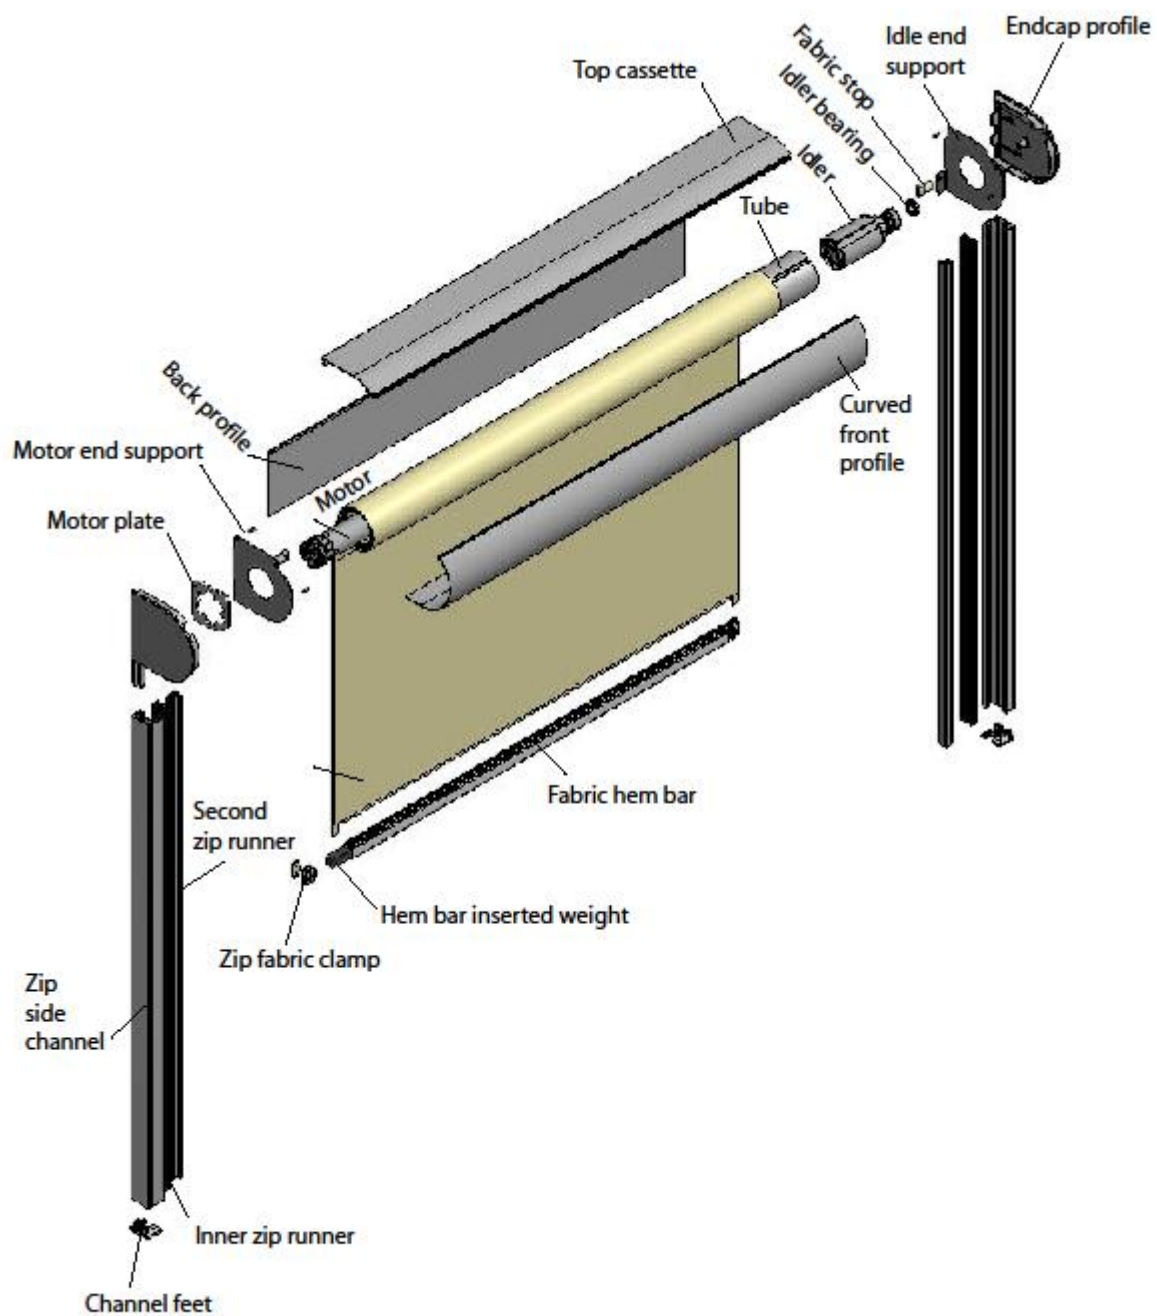

# Ziptex Components

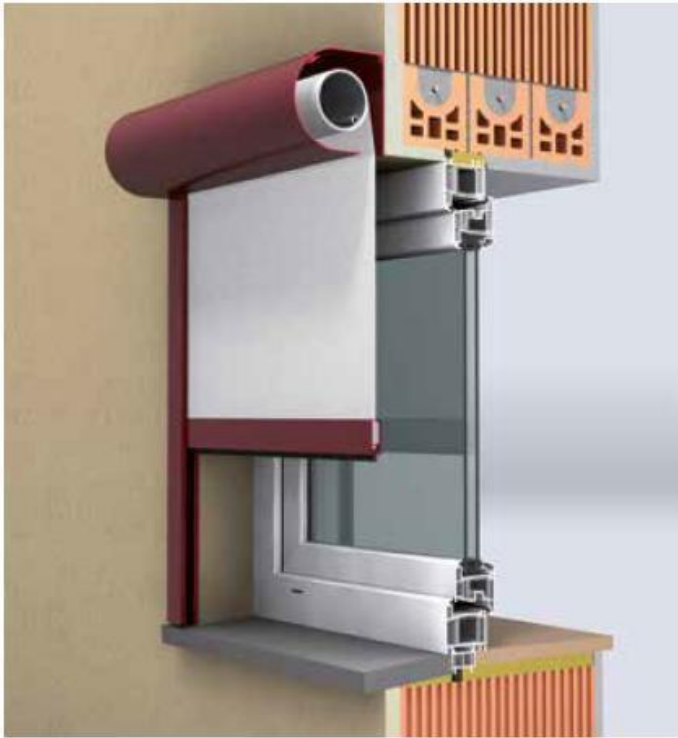

*Electric motor* is a tubular Somfy electric motor operated with a radio remote control

*Headbox* is of extruded aluminium in sloping or round design. All headboxes have surface enamel

*Side-channel* is made of extruded aluminium, also coated to match the headbox colour

*Bottom hem bar* is made of extruded aluminium with a hidden galvanized iron bar, coated to match the colour of the headbox
